The game world is created in true pixel art style. You start off with a small amount of money, and for the first five days you are completely without experience or skill points. During that time, you have to either go back to your village and leave everything behind, and collect money by executing bandits and thieves. After the 5 days are over, you can then go back to the town to buy various weapons for your killing spree. I developed the game in RPG Maker 2003, and it has a total of 8 separate maps. Each map is defined with a bunch of variables, like the number of enemies, the percentage of health for the enemies, how many blood splatters can be shown onscreen, how many enemies fall each step of the way, and lots more. So if you have a problem with the game, first check if the code works in the demo, because if it does, then there is absolutely no problem in your game. Last but not least, it is best to always save your game and not worry too much about the unsaved data being lost, because if you lost anything, you can simply re-load it. The game is heavily action-oriented, focused on the slaying of enemies in maze-like levels. Features: Playtime: ~1 hour 3 skill levels: Easy, normal and hard. 4 weapons: Machine gun, shotgun, bazooka and the burst cannon. Ultraviolence: Gore, executions, and a story centered on crimes against humanity. About This Game: The game world is created in true pixel art style. Its common name in French is "petit papillon". Sometimes it is also called "elephant butterfly" (in French "petit papillon d'as" (from as a diminutive of petit as in petit pli  and as a feminine of the masculine "petit (little)"); "elephant butterfly" (from the shape of the body) is perhaps used more rarely, in a similar way that English speakers may say "lobster" for those with lobster tails rather than lobsters. This term is not widely used, however, and is not in common use outside North America. It is sometimes referred to as "the little blue butterfly". Some

**heavy metal band Megadeth, released on February 20, 1992 through Capitol Records. It is Megadeth's first release since Dave Mustaine released his first solo album, Peace Sells... but Who's Buying? a month earlier. Guitarist Marty Friedman had stated that the album was not written by Mustaine, but was instead written by a band member as a statement, and he felt that a statement should be made by a band member. The album had an extensive amount of international touring while Mustaine had his own tour with his solo album. Mustaine himself approached Friedman, saying "I can't be in the band anymore, you're gonna be the new guitarist", but later went on tour with Foreigner, before joining Alcatrazz a year later. Built around the songs "Primal Flames", "Swamp Asylum", and "No More Tears", the album contains themes of hidden agendas, terrorism, modern culture, and praise for Mustaine. Regarding the violence being near the center of the album, Mustaine said he wrote them to make a statement, based on his own experiences with fanatical factions, and also to make a point that he feared that modern society was at risk of becoming near fascist. He also incorporated practical jokes he attempted at the time, making jabs at the military and government, using profanity, and even his manic-depressive disorder. Musically, the album has an eclectic blend of the thrash metal style, death metal, and hard rock. Upon its release, Born to Kill received critical acclaim from nearly all music critics. It debuted at No. 13 on the Billboard 200 chart**

It also reached No. 76 on the UK Albums Chart and was considered the band's breakthrough album, and the change in direction and the energy brought by the inclusion of new members was met with a positive response from fans. Furthermore, the album earned the band four Grammy Award nominations. It was re-released with a bonus disc with live tracks in 2005. Background In July 1991, the band was asked by MTV to film an interview for the series Interplay after a show in Mexico City. Mustaine and Friedman met with the network executives, who showed them**
